

7.2 BEST PRACTICE I

TITLE OF THE PRACTICE: POLLUTION FREE CAMPUS

Goal:

1. To make the college campus free from the pollution
2. To inform and aware the people about the importance of pollution.
3. To plant tree around the college campus area
4. To save the human being from the effect of environmental Pollution.

2. OBJECTIVES OF THE PRACTICE:

Clean and Green Practices aim at achieving eco-friendly and sustainable environment within the College campus. The main objectives are listed below:

- Implementation of cleanliness agenda among stakeholders
- Initiating activities to protect the environment and to reduce carbon emission by using alternative energy resources
- Minimization of waste generation and safe disposal of the wastes
- Conserving water and recycling it
- Expanding the Greenery within the campus to ensure pollution-free air
- Re-modeling the campus into a smart campus

3. THE CONTEXT:

Environmental protection / Go Green / Swatch Bharat Mission are the concepts evolved after realizing the harmfulness of pollution which affects not only human health but also the ecological balance. Optimum use of natural resources and keeping our environment clean and green are necessary for healthy living and sustainable future. Converting the institute into clean and Smart Campus by engaging the stakeholders will facilitate dialogue and sharing of ideas amongst students, faculty and administrators towards Sustainable Development Goals.

Today in the 21st century, the major problem is facing by our country is pollution. The college has taken initiative to free the college campus from the pollution. The college started “No Vehicle Day” to reduce the pollution and also the college has given information about the pollution to the people.

4. THE PRACTICE:

The college has been taken initiative to make pollution free campus from the year 2016-17. The college started “No Vehicle Day” to reduce the air pollution and noise pollution. The college also prohibited mobile ban in the college campus. The college also invited guest to give lecture on pollution. For F.Y.B.A, university has started Environmental Studies to aware the students to conserve of environment. The college has also kept dustbins at different places. The separate store room is created to keep all the deadstock material of the college. The college planted trees around the campus are to reduce pollution. The college also organizes Fire Cracker less campaign in the city. The mobile are also kept on silent mode in the college campus. The wastages are not burnt and it is composed in the earth. The roof water harvesting is connected to the tube well.

5. Evidence of Success:

1. Because of “No Vehicle Day” the pollution is reduced in the campus.
2. Because of the plantation of the trees around the campus, the students get free fresh air.
3. The campus area is clean and healthy.
4. The students kept mobile on silent mode.
5. The slogans are pasted on the walls of the college.
6. The reports of Green, Energy and Environmental audits portray the success of the green practices followed in the campus.

6. Problems Encountered:

Initially, there was a problem to start “NO VEHICLE DAY” but after its regular activities, the students following it.

E-waste Management Report

E-waste recycling is the reuse and reprocessing of electrical and electronic equipment of any type that has been discarded or regarded as obsolete. Recycling of E-waste is a growing trend and was initiated to protect human and environmental health mainly due to the widespread environmental pollution impacts of e-waste.

Disposing of old, out dated and non-working electronic items such as monitors, computers, keyboards, mouse, power supplies, printers, batteries etc. is a big problem because these material contains some kind of hazardous materials like lithium, lead, zinc etc. and improper disposal of these items is harmful for living beings. The institute has identified certified vendors for E-waste disposal. The electronic equipment that needs to be disposed is collected at a central store and then handed over to the certified vendors. We get certificate from the vendor ensuring that the E-waste will be disposed as per prevailing norms without harming the environment. For E-waste management our parent institution had provided us a committee.

The committee members come to see the condition of E-waste. They suggest us to sell the non-working laboratory equipment, computers, monitors, printers and batteries etc. as scrap materials. Those are sold on the systematic basis following the rules of purchase committee. All the sold materials are then ruled out from dead stock register for future records for safe recycling. The college is planning to create an 'E-Museum', where the damaged parts of computers shall be displayed from inside and outside. It will help the students to realize the internal structure of computer and other devices. This E-waste audit is scientifically carried out by our sansha regularly. The students of the college have actively participated in the youth festival event 'Installation' which is based on the theme of 'Best out of Waste'.

The solid waste Management Report

The college has a sprawling green campus and gives top priority to keep the campus clean and eco-friendly. The faculties and students are regularly advised to reduce waste at lower extent. Sincere students put waste in separate bins kept at different places on the college campus. The solid waste is regularly collected by the garbage town council.

Waste is collected twice in a day. It is processed as per the nature of the waste. The college has a vermin-compost unit in which it is collected. To minimize the problem of waste disposal separate dust bins are kept. Blue color dust bin is kept for dry waste and Green color dustbins are used for wet waste. Also a dust bin is kept in every room to collect the dust waste is collected twice in a day.

Organic waste is converted into bio-fertilizer by the composting plant developed by the college. Garden waste, kitchen wastes from the college canteen and other wet waste are collected from different areas of the campus. After the compost is ready in due course it is harvested and used for plants on the campus. Dry waste mainly leaf litter is allowed to decompose systematically over a period.

The wet waste from garden, kitchen of canteen and from other areas are collected and after that composting is ready in due course it is harvested and used for the plants on the campus. Partial waste recycling system is maintained on the campus by utilizing the sewage water to water the nearby trees. The boards with meaningful slogans are displayed to bring environmental consciousness among the students as well as stakeholders. Old newspapers, old answer papers and raw paper material (Raddi) is sold out. Plastic ban: Notices are displayed in campus to refrain from use of plastics. In addition security is alerted to stop plastics entry on campus in any form. Canteen, Hostel rooms are monitored for all such usage and an attempt is made to completely eradicate any form of plastic on campus. Paper bags are encouraged for use by students and staff members.

Department of Chemistry

Solid Waste Management in Chemistry Laboratory

A hazardous waste is a solid, liquid, or gaseous material that displays either a "Hazardous Characteristic" or is specifically "listed" by name as a hazardous waste.

Characteristic Wastes are not listed specifically by their chemical name but they are regulated as hazardous wastes because they exhibit one or more hazardous Characteristics. These four Characteristics are Ignitability, Corrosivity, Reactivity and Toxicity.

Department of Chemistry Practicing rules for reducing hazardous waste by

Ordering the smallest quantity of chemical materials required for your research.

Substituting hazardous chemicals with non-hazardous chemicals whenever possible.

Reducing the scale of laboratory experiments to reduce the volume of waste being produced whenever possible.

Solid waste in Chemistry Laboratory includes broken glasswares, broken thermometers, Electrodes, and out of service instruments like potentiometers, pH meters, heating mantle, magnetic stirrer and Refractometer, etc.

Broken glasswares are stored in separate container and declared as dead stock.

Out of service instruments are stored in separate container and declared as dead stock.

Organic solid waste like degradable products, filter paper, Cotton, thread and match sticks, etc.

Are stored in separate dustbin and dumped into separate pit.

Department of Chemistry

Liquid Waste Management in Chemistry Laboratory

A hazardous waste is a solid, liquid, or gaseous material that displays either a "Hazardous Characteristics" or is specifically "listed" by name as a hazardous waste.

Characteristics waste is not listed specifically by their chemical name but they are regulated as hazardous waste because they exhibit one or more hazardous Characteristics. These four Characteristics are Ignitability, Corrosivity, Reactivity and Toxicity.

Department of Chemistry Practicing rules for reducing hazardous waste by

Ordering the smallest quantity of chemical materials required for your research.

Substituting hazardous chemicals with non-hazardous chemicals whenever possible.

Reducing the scale of laboratory experiments to reduce the volume of waste being produced whenever possible.

The liquid waste in Chemistry Laboratory is Classified into two Categories Hazardous and non-hazardous.

Hazardous and non-hazardous liquid waste is stored in separate container.

Non-hazardous waste dumped in to separate pit without reacting.

Solvents are recovered and stored in separate container.

Hazardous and reactive liquid waste is first stored in separate container and then reacted with other chemicals to reduce reactivity, after that it is dumped to separate pit.

Non reactive liquid waste is collected in separated container and dumped into pit.

फटाके मुक्त दिवाळी साजरी करू या

फटाके फोडण्याची सुरुवात चीन देशामध्ये झाली. चीन मध्ये प्रथिनकाळी भुत पिशाच शेतान यांना पिटाळून लावण्यासाठी मोठेमोठ्याने डोल वाजवत. वातुन असे जाणवले की फटाक्यांच्या उगमच एका अंधश्रध्देतून झाला आहे. आज भारतात फटाके फाडले जातात ते मौज म्हणून ! पुर्वी फटाके फक्त दिवाळीला उडवले जात होते, पण आज लग्न, मॉज, साखरपुडा, बरसे, वाढदिवस, ३१ डिसेंबर, रावणदहन या शिवाय विविध मिरचणुक, शोभायात्रा, क्रिकेटचा सामाना जिंकल्यावर एवढेच नाही तर काही ठिकाणी प्रेत शपेत देखील फटाके फोडले जातात. या फटाक्यांचे दुष्परिणाम काय होतात याची आपणास जाणीय आहे काय...

ध्वनिप्रदूषण

- रुग्णालयातील रुग्ण व नवजात बालके यांना फटाक्यांच्या आवाजाचा त्रास होतो.
- फटाक्यांच्या आवाजामुळे बहिरेपणा येतो.
- फटाक्यांमुळे श्रवणसंज्ञातील पेशी एकदा मृत झाल्या तर त्या पुन्हा निर्माण होत नाहीत.
- फटाक्यांच्या ध्वनी प्रदूषणाने डोकेदुखी, रक्तदाब, हृदयविकार इ. चा त्रास होतो.
- फटाक्यांच्या आवाजाने श्वसनमार्गांचे आणि फुफ्फूसांचे त्रास होतात.
- फटाक्यांमुळे पशू पक्षी धाबरतात.
- फटाक्यांमुळे इमारतीला हादरे बसतात.

फटाक्यांचे दुष्परिणाम

- फटाक्यांच्या आवाजाने मानसिक स्वास्थ्य बिघडते.
- फटाक्यांमुळे वातावरणात पसरणाऱ्या विषारी वायुचा त्रास होतो.
- फटाक्यांमुळे पैशांचा अपव्यय होतो.
- फटाक्यांमुळे काही वेळा आगी लागू शकतात. व आर्थिक नुकसान होते.
- फटाक्यांमुळे शरीराला इजा सुध्दा होतात.
- फटाक्यांमुळे ही आपली संस्कृती नाही तर विकृती आहे.

फटाक्यांमुळे होणारी हाली थांबविण्यासाठी कृपया हे करा.

- * फटाके मुक्त दिवाळीची शपथ घ्या.
- * फटाके न फोडण्याची सुरुवात स्वतः पासून करा.
- * फटाके न फोडता दिवाळी साजरी करून सामाजिक बांधिलकीचे भान ठेवून प्रयत्नाने ते अंमलात आणा.

आपणास सर्वांना

शुभदीपावली...
 च्या शुभेच्छा...!
